OBJECTIVE

Detail-oriented Software Developer with a solid foundation in business information systems, data analytics, and full-stack development. Proven ability to build modern web platforms, engineer automated data pipelines, and develop interactive dashboards that translate complex business requirements into high-impact software solutions.

WORK EXPERIENCE

- **Full-Stack Developer at BDC | Mar 2026 – present**
 - Design, develop, and deploy responsive websites and full-stack web applications.
 - Develop and integrate frontend, backend, APIs, and database functionality.
 - Build automated web-scraping pipelines to extract, structure, and process complex datasets.
 - Transform raw data into interactive reports and dashboards using data visualization tools.
 - Develop business-focused software solutions based on functional and technical requirements.
 - Implement automation workflows to improve data processing and operational efficiency.
- **Content Creator (Part-Time) at H properties | Aug 2024 – Jan 2026**
 - Develop and execute content strategies for real estate marketing campaigns.
 - Create engaging social media content, blog posts, and promotional materials.
 - Develop marketing campaigns to effectively showcase properties and increase visibility.
 - Create visual marketing materials using Canva.
- **Data Analyst Trainee at Fugro | July 2024 – Aug 2024**
 - Analyze datasets using Python to identify trends, patterns, and relevant insights.
 - Create data visualizations to communicate analytical findings effectively.

- Support the preparation and transformation of data for reporting and decision-making.
- **Trainee at Banque Misr | Aug 2023 – Sept 2023**
 - Assisted with daily banking transactions and teller operations. Processed financial operations with accuracy and efficiency.
 - Processed financial transactions accurately and efficiently.
 - Supported customers with routine banking inquiries and services.
 - Followed banking procedures and ensured proper handling of customer transactions.
- **Data Analyst Trainee at Fugro | July 2023 – Aug 2023**
 - Collected, organized, and reviewed financial data for accuracy.
 - Created Power BI visualizations and dashboards to present financial trends.
 - Supported the preparation of data-driven reports for business insights.
 - Identified trends and patterns within financial datasets.

FEATURED PROJECTS

R&M Industrial Solutions Platform | rm-bmu.com

- **Tech:** Next.js 19, React 19, TypeScript, Three.js, Supabase, Tailwind CSS, next-intl.
- **Impact:** Developed a cutting-edge B2B platform for an industrial equipment provider featuring interactive 3D models (Three.js) and full English/Arabic internationalization.
- **Key Features:** Built a secure Admin Dashboard for content management and an automated lead-generation system via a custom quote request workflow.

Back2Home For missing people | back-to-home.vercel.app

- **Tech:** Quasar, Supabase.
- **Impact:** Developed an application designed to reunite missing people with their families by leveraging AI-driven facial recognition technology to identify individuals in photographs.

Student Attendance & Quiz Tracking System

- **Tech:** n8n, Google Sheets, Twilio, WhatsApp API.
- **Impact:** Automated the workflow for tracking student progress. The system captures quiz grades, logs attendance via webhooks, and sends automated performance summaries to students/parents.

CRM System | Under-Development

- Tech: : Next.js 19, React 19, Supabase, Tailwind CSS, Api, Automation.
- Impact: Confidential Project.

EDUCATION

- **Arab Academy For Science And Technology**
 - Bachelor's in business information systems (College of Management & Technology)
 - GPA: 3.85

CERTIFICATIONS

- **Data Science Course (OAK Academy) – Python & R for Data Science**
- **AI Automation Course (Arnold Oberleiter) – AI Automation using n8n**

TECHNICAL SKILLS

- **Web & Software Development:** React.js, Node.js, Quasar, PHP, Next
- **APIs & Integration:** RESTful APIs, Postman, JSON
- **Cybersecurity Basics:** Encryption, Authentication
- **Data Analysis & Visualization:** Python (Pandas, Matplotlib), Power BI (DAX, Dashboard Creation), Excel
- **Database Management:** SQL (PostgreSQL), Supabase
- **Enterprise Systems:** ODOO ERP
- **Productivity Tools:** Microsoft Office (Excel, PowerPoint, Word)
- **Graphic design:** Canva, photoshop, illustrator
- **AI Automation:** n8n

ANALYTICAL & BUSINESS SKILLS

- **Business Process Modeling:** BPMN, UML Diagrams
- **Data-Driven Decision Making:** Understanding KPIs, dashboards, and reports
- **Problem-Solving & Critical Thinking:** Ability to analyze and solve business challenges

SOFT SKILLS

- **Collaboration & Teamwork**
- **Analytical & Detail-Oriented**
- **Communication & Client Engagement**
- **Presentation Skills**

LANGUAGE

- **English:** Higher Intermediate (B2)
- **Arabic:** Native
